OVERVIEW: STUDENT-REAL-WORLD

This platform serves as a marketplace for students to find accomadations and buy and sell items.

Key features and functionality:

1. *user Authentication and profile:*
   - user roles:student buyer, student seller, student agent
   - signup/ login: email/ password
   -profiles: update dp, contact info

2. *Accommodation Listings:*
   -search filters
   - detailed listings: each accomadtion should have a dedicated page with details (rent, location and images)

3. *Marketplace for Buying/Selling:*
   -categories
   -search filter
   -purchase method: fluterwave or paystack

4. *communication and chat*
   - in app messaging between users(buyers-sellers and landord-tenants)
   - notifications should be enabled too

5. *Reviews and Ratings*
   -Landlords/Tenant: Allow tenants to leave reviews and ratings for landlords or properties.
   -Buyers/Sellers: Implement a rating system for buyers and sellers for added trust and safety.

6. *Admin Panel*
   -Admin Dashboard: Manage user accounts, listings, and reports.
   -Moderation: Review content and approve listings before they go live.
